Subject: RE: Planning notification for application reference: 20/01440/F

Thank you for your consultation with regard to this application.

The site is of archaeological interest. However, based on the photographs submitted with the application, it is clear that any structural or contextual information that might have been observed by archaeological monitoring is already likely to have been lost. I therefore consider that there are no archaeological constraints to this scheme

Given the above, I have no further comments to make on this application. Please do not hesitate to get in touch if you would like to discuss this further.

Kind Regards

Clare
