Dear Sir/Madam,

With regard to the above application I have no objection except to comment on the safety measures for the Highway and pavements. The present temporary measures will need much improvement to protect pedestrians.

The pavement opposite to the entrance of this property is approximately 4' wide with old houses directly onto it. With no room to pass safely, pedestrians are having to step onto the road. Traffic is increasing in speed and volume near to a blind bend and two busy junctions. Safety measures will need to be a priority here.

Yours faithfully,

[Redacted Signature]

(MRS RITA PALMER)

PS.

I have tried to send a comment via the web-site stated but with no avail. Our computer at this present day is not working. I feel it is important to consider this letter therefore.
