<b>Comments</b>	<input type="text" value="General observation. We have spoken to Mr Matthews regarding the proximity of the proposed new building as it is within 4 to 6 metres from our home and 1 metre from our fence which is the boundary between the two properties. There are also trees on the site at the present moment. We do not know whether the new building and basement could undermine our foundations . We have been assured by the applicant that he has spoken to his architects to ensure that there won't be a problem with our foundations , although there are no supporting engineering drawings available yet to confirm this. Therefore we would like any decision to fully reassure us that our foundations will be protected as a result of this building and basement and also that any damage caused to the fence dividing the properties will be put right accordingly. Please also confirm that the height of the new structure will not exceed the height of the existing garage. Thank you very much."/>
