Dear Gemma

Please find enclosed photos and details for the Roof materials for the above Bungalow.

Thank you so much for coming out so quickly, I really appreciate it and so does Andy, the Builder. It was my fault for not reading everything on the planning approval thoroughly so not realising I would need to give you notice for these materials. I had thought that I just needed to have the details on site for you to look at.

If there is anything else you need please phone me on [REDACTED] and I will sort it out immediately.

Thank you again  
Kind regards
