Banbury

Dear Sirs

Application No 20/01933/F

I have viewed this application and OBJECT most strongly for the following reasons :

- 1 It seems entirely inappropriate for the location -
It looks like a modern prefabricated wooden structure – out of keeping with the neighbourhood and the countryside
- 2 A large number of trees will be removed - surely such vandalism should not be encouraged – despite the replanting proposals.
- 3 Surely a proposal to develop the old barn sympathetically would be much more appropriate.
- 4 It completely fails to meet the requirement to enhance the setting.

In short, I feel this development would be a carbuncle on the local landscape.

In addition, I note that there is no provision for affordable housing in this development.

Yours faithfully

David Hamilton
