Comments	<input type="text" value="I would like to wholeheartedly support this planning application. It is refreshing to see a planning application in which the impact on the local countryside and conservation is so clearly at the forefront and heart of the design rather than as a footnote in order to gain planning consent. My father grew up in the village of Wigginton and farmed the local area (before we moved our farm to Warwickshire) and I welcome any proposals which will protect an area of the countryside which is so close to my family's heart. It is also clear from the plans that the proposed house will not only be a very cool and interesting design but crucially tucked away in a woodland and not obtrusive on the landscape. To my mind and in short, anything that offers the sort of enhancement that this proposal is offering should be warmly welcomed and actively encouraged."/>
