<b>Comments</b>	<input type="text" value="I had been told about this application and decided to look it up myself as it concerns an area I know well as I spend most weekends walking all the local footpaths, one of which passes through a field near to the application site. I love the design and cutting- edge architecture, I love its modernity and its unique style and the way part of it projects over the water is truly beautiful. I think it is very exciting to see the way buildings evolve with the passage of time and therefore wish to lend this application my full support."/>
