Comments	<input type="text" value="As a keen walker, I am very familiar with the footpath between Hook Norton and Wigginton which runs just south of the application site. Having become aware of this application and looked it up, I felt the need to say how refreshing it is to see such an exciting proposal. It will protect and enhance this special landscape, as well as being a beautiful design that will be innovative in energy generation and conservation terms. This is exactly the sort of proposal that Paragraph 79 was devised to promote, and I wholeheartedly support it."/>
