Comments	<input type="text" value="I wholeheartedly support this scheme. The design proposals strike at the heart of - and clearly further - the policy aims of para 79(e) of the NPPF insofar as an innovative, well-developed proposal such as this will surely help to raise the standards of design in rural areas. It is clear that the significant engagement with the Design Review Panel has resulted in a scheme that is truly outstanding and born out of the local vernacular. Additionally, the construction of the building will be a boon for the local, rural economy providing employment to a number of tradespeople and local businesses. Such a consequence should be actively encouraged in these uncertain times"/>
