Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="I would like to totally object to this project, this area of the Swer valley is one of the last remaining unspoilt areas of outstanding natural beauty that has not been developed. It is a haven for wildlife and is used for local walkers to enjoy its untouched landscape, which so required for positive mental well being and health over these difficult times, as living in the country can be lonely for many of the village residents. The location is not suitable for housing and would require severe disruption to gain access to the site, it would destroy the whole valley and create not only a physical eyesaw but would emit constant light pollution, as has been the case on the hook Norton Milcombe rd part of the valley. These plans just show how money and greed for the satisfaction of just family overrides the pleasure of many. Please, Please don't approve"/>
