<b>Comments</b>	<input type="text" value="I am writing in support of this application as these trees on my neighbours property have grown to a very significant height and act as a considerable barrier to light at the rear of my property and as such internal lighting is required to be used for a significant amount in daylight hours. As such the reasonable enjoyment of my garden is being adversely affected by these trees and would be significantly enhanced by their felling. The trees also deposit huge amounts of debris which is causing discolouration of my garage roof and blocking of drainage etc. I am aware that these trees are covered by TPO's but I do not believe that their removal would have a significant negative impact on the local environment and / or its enjoyment by the public either now or in the future"/>
