Comments	<input type="text" value="Dear Sir Madam, This is an unsustainable rural location where development should be restricted. It is an open countryside location between two villages where the scale and type of development proposed would be detrimental to the character of the area. Any residential uses on this location will be dependent on the use of private motor vehicles by reason of the distance to essential services and facilities. Permitting development here would be contrary to modal shift objectives and the achievement of sustainable planning. Station Road Cropredy experiences high traffic volumes especially at school drop off times. Additional traffic movements in close proximity will be detrimental to the interests of highway safety."/>
