Comments	<input type="text" value="This development should not be considered for the following reasons: There is regular flooding to the road in this area and it becomes impassable. More development in the bottom of the valley will exacerbate this as run off from the hard standing will make the problem worse. There is already a traveller site on the A423 Southam road at Mollington which has been expanded way more than the plans allowed for when this application was passed- the same thing will happen here. Building on this site would set a precedent for further plans to be submitted, eventually making the villages of Cropredy and Great Bourton into one giant village. I strongly object to this application on the above grounds."/>
