Comments	<input type="text" value="I consider the application to be inappropriate and if successful could be the trigger point for ribbon 'residential' development stretching all the way along the Main Street. I believe that the wording contained in the 2011-2031 Cherwell Plan makes it quite plain that any development covered by the Plan should ENHANCE the character of the area and I consider the land referred to in this application falls within this context and that CDC's decision should recognize this. My final point is that there is a PUBLIC footpath crossing the land which would probably be included in the area of the application. This must be protected for the benefit of local and visiting walkers and ramblers"/>
