Comments	<input type="text" value="There are many well-written and researched comments already, all of which I have read and support. I would add a personal comment, being that we moved to Great Bourton just 18 months ago and in that time have seen the GP surgery closed to new patients and taking months to add extra clinical capacity to be able to meet even the existing workload. More recently, we have witnessed a flash flood running down Main Street and rushing into Cropredy close to the school. We understand this is not an isolated event. Whatever the merits or otherwise of the social aspects of the Application and the potential for future infill, adding to the burden of services and infrastructure that have been recently overwhelmed seems unwise at best."/>
