Comments	<input type="text" value="We wish to object to the proposed application. The location is a beautiful area of countryside dividing two quiet rural villages. Everyone who lives in the villages are aware that the surrounding fields of the proposed site are liable to flooding on a regular basis. Any development would be likely to exacerbate the problem. This is coupled with the concerns of many villagers, that if the proposed application is approved, it will set a precedent and will therefore lead to future applications being submitted for further development on the land located to the sides and directly opposite."/>
