<b>Comments</b>	<input type="text" value="I strongly object to this application on a number of grounds. Additional traffic at this section of road will cause further disruption and congestion on an already busy road due to the nearby primary school - particularly during school drop off and pick up times when the road is limited to single file - further increasing risk to safety of children and other road users. The introduction of caravans is not in keeping with the surrounding agricultural which has 'high landscape value' and this detrimental visual change will devalue surrounding property. Light pollution and noise are additional concerns. I have serious concerns about the introduction of risk to the security of local property and businesses as a result of this change of land use to accommodate gypsy caravans and families - resulting in stress to the community and cost associated with making changes to the security of our property and how we live in it and/or manage it. This will also devalue our property. Is the council willing to underwrite this potential loss? Finally, the conversion of grassland to hard standing will also exacerbate an area that is already prone to flooding and has led to school and road closures in cropredy on a number of occasions. Photographic evidence available if required. I have further concerns regarding the management of sewage on this site, given the flooding issue and the fact that flood water spills onto public walk ways and into the grounds of cropredy primary school. I sincerely hope that this planning permission is not granted. Regards"/>
