

Comment for planning application 20/02083/OUT

Application Number	<input type="text" value="20/02083/OUT"/>
Location	<input type="text" value="Land north of Hempton Road and west of Wimborn Close Deddington"/>
Proposal	<input type="text" value="Outline - Erection of 14 two-storey dwellings"/>
Case Officer	<input type="text" value="Bob Neville"/>
Organisation Name	<input type="text" value="Chris Mason"/>
Address	<input type="text" value="21 Hatch Way,Kirtlington,Kidlington,OX5 3JS"/>
Type of Comment	<input type="text" value="Comment"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="I see that the Ecologist's report suggests that nest boxes could be incorporated within the buildings. I would propose that Swift nesting boxes would be most appropriate because - - Swifts nest both in nearby Hempton and in Deddington so the boxes are quite likely to be used by Swifts - Swift nest boxes are also suitable for, and frequently used by, several other species including House Sparrows (another species of Conservation Concern). I would suggest at least 12 boxes. These should be located in groups rather than singly. There are a number of different Swift nest box designs which can be incorporated in the building's structure on the market. They are quite simple to install and unobtrusive. Swifts do not leave any mess below their nest places. I would be willing to offer advice at a later stage if asked. Chris Mason Cherwell Swifts"/>
