Comments	We object to this, in the six years we have lived here we have seen an increase in the number of events held and more concerning the size and scale of the events. Not only has this resulted in a big increase in noise disruption, the sheer size and scale of heavy duty trucks that use the road by our house has consistently caused damage to the road surface, our grass verges that get driven over and litter is thrown out of vehicles. The scale of some of the vehicles is endangering the public highway and on several occasions we have not been able to turn into our property and so have been left stationery on a blind corner. This is incredibly dangerous as anyone turning left of the Stratford road would smash into the back of us, un aware that we were there. During lockdown when no events were staged the verges made a significant recovery, we noticed an increase in wild animals and birds. On Sundays when these events are held traffic noise starts at 7am as vehicles travel from the Stratford road past our house and on toward Hornton. What was once small scale transit vans, small caravans and campers has now also become large sponsored trucks and motor homes.
