Comments	<input type="text" value="Sir, to follow my previous letters please find attached two photographs showing the filling of water tankers and one of a tanker watering the motor cross track. During the 15 minutes I was observing the activity I saw four loads discharged which would have exceeded the daily maximum allowed of 4400 gallons thus triggering the need for an abstraction licence. This was witnessed by me on the evening of 19th September 2020 at approximately 1930hrs (7.30pm)."/>
