**Subject:** RE: Wroxton Motorcross Track - 20/02126/CLUE

On the clarification regarding the number of events as recorded in the PCN and in the LDC application I have spoken with my client, who has in turn spoken with Mr Pounder who responded to the PCN. The discrepancy comes down to what is recorded in each. Exhibit BP1 with the LDC application records "race meetings" only and expressly excludes days where the track was in use for testing and personal use. The PCN response saw the submission of calendars marked to show dates Mr Pounder was at the track for the purposes of motorcross which includes those additional dates. I understand that there is a typo in relation to the year 2018 where 22 track meets are shown on exhibit BP1 and 21 on the calendar. These numbers should be the same.
