Comments	<input type="text" value="We strongly object to this application for a 'fuel farm' as we feel that the volume of lorries expected to be passing through the village of Wroxton will have a severe impact on our environment. We live on the edge of the village and we already have far too many heavy goods vehicles hauling passed our front door and it is already virtually impossible to pull out of our close without risking life and limb. We also object to the prospect of hundreds of thousands of litres of fuel being kept at this location. An similar application was refused and we have not seen any evidence to show that this application is any different."/>
