Organisation	<input type="text"/>
Name	<input type="text" value="Kate Smith"/>
Address	<input type="text" value="3 The Firs,Wroxton,Banbury,OX15 6QS"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="I am objecting to the planning application for a fuel farm near our village, Wroxton. As a mother of two children, I am already concerned regarding the volume and speed of the traffic through the village. My understanding of the impact this fuel farm will have is that in addition to the risks associated with storing this volume of fuel, is the increase in traffic, specifically the lorries that will pass through the village. They will create more noise, damage to the road, and pose danger for the children and elderly to the village whereby crossing the main road presents a real hazard. Because the village is on a vital bus route for Banbury/Stratford as well as Kineton and Wariner schools school children are crossing this busy road, an increase of lorries will make this even worse. Eventually, there will a fatality on this busy road, please don't make it my child. We live in an area of beauty with much wildlife around us, this kind of development poses environmental risks that I am disappointed Cherwell are considering acceptable There will be suitable alternatives that required closer access to the M40, posing less risk to both human and environmental risk, please reconsider the location of this."/>
