Comments	<input type="text" value="I would like to strongly object to this application. The proposal if granted would result in potentially hazardous material being stored near residential properties with many lorries containing such dangerous material driving through areas with residents. The noise of tens of daily lorries will also ruin the local region. The very reason people enjoy living in rural environments is for the peace and quiet. Counsellors should reject this proposal otherwise they find that in years to come further similar larger proposals are submitted near their properties and under the rule of precedence they will have no ability to object."/>
