<b>Comments</b>	<input type="text" value="I would like to heavily object to the proposed 24hr, 7 days a week running of this fuel site. I live within a mile of this quarry and I'm deeply concerned about the level of noise from super trucks operating and reversing through the night. I'm concerned about light pollution at night. I'm concerned about the storing of huge amounts of fuel so close to three village communities. This is industrial use that should be kept to industrial estates near motorways or areas of town where this level of noise and traffic is already established and absorbed. After years and years of quarrying this land should be left to rest for a period and to establish its wildlife again. I hope you will consider this very carefully and note the proximity of such relentless industry to a quiet village in a valley that tends to echo surrounding noise. Yours Sincerely Joanne Madden"/>
