Subject: Traffic through Wroxton

Dear Mr. Neville,

We have been advised that a planning application by Certas Ltd. for a fuel depot at Hornton Grounds Quarry is being considered by CDC. We would like to object to this application most strongly.

Already the traffic passing along the Stratford Road to and from Banbury is excessive for such a small thoroughfare and as we live on a corner where the road passes the Wroxton House Hotel we are constantly aware of the volume of traffic and the resultant dirt and noise. Perhaps it is time for CDC to consider a bypass facility for Wroxton.

Please log our objection.

Sincerely,

**Arthur Spencer-Bolland
