<b>Comments</b>	<input type="text" value="I would be grateful if you would consider my strong objection to this application on the following multiple grounds. Firstly, I believe that the choice of this rural location is totally unsuitable. I struggle to understand why a similar application would be rejected recently for an industrial location and yet considered here. Secondly, the use of this facility and its operating hours will cause significant light pollution at night Thirdly, there will be noise pollution (especially at night), particularly due to the prevailing winds towards Hornton. The assessment of noise pollution in the submitted documents appears inadequate and does not take into account wind direction and local acoustics Fourthly, the increase of HGV traffic on these roads, particularly through villages such as Wroxton will pose a significant safety risk Fifthly, the choice of a location not easily accessible to the M40 will increase truck movements and CO2 emissions Sixthly, the risk of a fuel leakage and the ensuing environmental damage is unacceptable Given the number of reasons that this site is unsuitable for this purpose, I would strongly urge you to reject this application."/>
