Comments	<input type="text" value="I live on the A422 and during the passed eighteen years the number of vehicles passing through Wroxtton has increased greatly and not all vehicle drivers obey the speed restrictions. The noise levels are also on the increase so if this proposal for an oil terminal on Horton quarry should go ahead it will only exacerbate the situation both during the day and if sanctioned at night also. Therefore this will make properties in the village less desirable with residents losing out in all ways. C.D.C should talk to Highways about the possibility of using the old quarry railway line as a bypass for the village."/>
