Comments	<input type="text" value="OBJECTION TO PLANNING FOR A FUEL DEPOT PLANNING APPLICATION Planning Application - 20/02453/F I am objecting to this industrial planning application for a fuel depot at Hornton quarry grounds in a rural, unspoilt area. The only access to a good network of roads is either through Banbury, which is accessed via Wroxton which has a 90 degree bend in it, as an hgv driver myself this requires using both sides of the road to negotiate the turn. Or by going via Gaydon which requires going along a very wiggly road up a very steep hill, which requires 2nd gear in a lorry and through Edgehill which has tight access due to cars parking along the narrow road. Alternatively, you can access the M40 through Wellsbourne and up Sunrising hill where lorries are endlessly getting stuck due the steep nature of the hill. A project like this would be much better suited near a motorway where it will have much less impact on the countryside and wildlife."/>
