Comments	<input type="text" value="Dear Mr Neville, I would ask you with regard to this application to consider the following points. The application site sits between an area of outstanding natural beauty and a grade 2 listed farmhouse, Therefore how does this application NOT affect those settings? Was the quarry not always seen as temporary? Hornton is blessed with little light and sound pollution and surely would be affected to some degree. Would there not be a more appropriate and sustainable location for an enterprise of this nature, given the Distance from the nearest town and motorway. Regards, Carole Campbell."/>
