Comments	<input type="text" value="My objection is that I am concerned with an increase of traffic using the A422. The planning notice suggests that there will be a negative effect on the nearest villages to the proposed development but as the vehicle movements will be travelling through the villages of Wroxton and Drayton this will have a noticeable and significant impact. Wroxton has a particularly sharp bend that articulated and longer wheelbase vehicles are unable to negotiate without driving on to the opposing carriageway, and Drayton is not without its on bends and is on a steep incline. Heavy traffic using this road already can cause problems and though obviously some of it is necessary ie. local/farm/deliveries etc I struggle to understand why some of them are using this road when there is a good major road available close by linking towns and cities. Therefore it would make more sense for the company to locate adjacent to this road network in an industrial development and not in a rural area."/>
