Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input 250="" andy="" have="" house"="" however="" is="" macdonald"="" no="" old="" option.="" other="" over="" regards="" the="" type="text" value="Dear Sir/Madam, As a resident of Drayton, directly on the Stratford Road, i strongly object to the proposed development based on a number of factors 1. At present the traffic through Drayton is already high, with speeding cars/lorries/motorbikes. In the mornings during the week there is already a significant high volume of lorries heading towards the M40 from the quarry site and this site would only increase the amount of heavy traffic heading through Drayton 2. Noise - the increased volume of traffic wil signifncatly increase the noise of traffic throught the village as the southbound traffic heads to M40 mainly during the morning and is this application also at the weekend 3. Safety - The increase traffic will increase the safety risk in drayton where there is no traffic calming or speed camera to deter speeding traffic. The villaage has elderely and children in the village and heavy traffic will be an increased issue 4. Damage - the increased heavy traffic will increase wear and damage to the listed and non listed buildings in the village which i am quite sure the council will not contribute to. 5 Conservation area - Drayton is a conservation area and increased heavy traffic is hardly in keeping with a conservation area. We are already considerig moving as the increased traffic is dangerous, noisy and not in line with Village life as the stratford road is more like a race circuit most days. 6. Finally, if did stay we would need to rennovate and introduce triple glaazed windows into our house as a result to keep noise and pollution down. Unfortunalty this would not be in keeping with " we="" which="" would="" years=""/>
