<b>Comments</b>	<input type="text" value="As a homeowner of a property situated on the main road through Drayton and as mum of two young children I strongly object to building of a fuel depot which would see approximately 158 tankers per week added to the already busy traffic through the village. There is already a problem with speeding through the village including heavy goods vehicles which are not only noisy but can be felt as they pass the houses, most of which are over 100 years old. I believe there are more suitable locations for the depot to be situated which would provide better access to the m40 and other major roads without increasing the risk of a serious accident or causing damage to local wildlife."/>
