Comments	<input type="text" value="I strongly object to the building of A fuel depot including ancillary offices, the installation of plant and hardstanding at Hornton grounds farm for several reasons. The volume of traffic will increase and this will be on a road unsuitable for HGVs The noise Pollution levels will increases and severely disturb the peaceful and quiet village of Hornton. Light pollution from the 24/7 sight will hinder the sky at night and block stunning views of the starlit night sky The increase in HGV traffic will bring higher levels of pollution to our village which has a primary school with over 75 pupils. The increased traffic will also create more danger on the A 422 road due to the position of the turning. It has 2 blind spots and cars travelling past this junction will be unable to stop in time to avoid collisions with HGVs The farm and the residents of the farm will have their lives altered dramatically by this proposal and for these reasons I must oppose this application. Yours sincerely Neil Madden."/>
