

Dear Sir,

As a Wroxton resident I have serious concerns about the above proposed plan.

The village already has a problem with traffic which the Parish Council has tried to address with speed awareness cameras without a great deal of success.

There are a considerable amount of lorries through the village from Benny's quarry but their operating times are restricted.

The noise throughout the night and pollution will impact greatly on the residents of Stratford Road.

Yours faithfully,

R.H. Waters,

Church Street,

Wroxton
