Comments	<input type="text" value="We would like to object to this planning application. We can not understand how it can possibly be passed when rejected so recently from the Sugarswell site not more than 2 miles away. We are concerned about increased traffic through neighbouring villages with narrow roads, noise and light pollution and damage to the environment and wildlife as many others have commented. We had always thought that quarrying was permitted on this land on the understanding that the land was to be returned to agricultural use when quarrying ceased. The application shows no regard whatsoever to the impact on the Hornton Grounds Farm and Hornton Grounds B&B businesses which would be severely impacted if the proposal were to go ahead. There must be many other potential sites the applicant could explore in more suitable industrial areas with better access rather than at Hornton Grounds."/>
