Comments	<input type="text" value="Ratley & Upton Parish Council, being a neighboring parish to the one this application is located in, have been requested to comment on the application:- From a RUPC perspective, our only main concern with the application are the potential for light pollution. Given the 'dark skies' status enjoyed by the locality, all developers should be mindful of excessive lighting, particularly if the arrays will be permanently lit. We must request that adequate provisions are put in place to ensure that all lights are fully shielded / pointing downwards, and that the duration of lighting is minimised by the use of timers, light or proximity sensors etc. We do not feel that, for our Parish, the projected additional vehicle movements will be significant, given the relatively small numbers cited and the nature of the road.
