Subject: Re: Planning Application by Certas Ltd to build Fuel Depot at Hornton Grounds Quarry

Re: Planning Application by Certas Ltd to build Fuel Depot at Hornton Grounds Quarry

Dear Sir,

This planning application should it be approved would seriously increase the current heavy vehicle levels on the A422 through Wroxtton thereby increasing the general detrimental effect on the village environment. The main concerns are the added noise and fume pollution. Also there is an extremely sharp corner which large tankers cannot negotiate without going wide over double white lines thus causing major hazard not to say anything about the narrow stretch of road, ie. Silver Street, where pedestrians have to be aware of the threat of large wing mirrors and serious splashing in wet weather.

As we live on Silver Street we would be seriously effected by the increase in traffic movement and the added noise both day and night.

Yours Sincerely

Francis and Marie Mordaunt
