| Comments | <input type="text" value="I wish to object to this proposed planning application on the following grounds . I consider it vastly inappropriate to build a fuel depot so near to peaceful rural communities . The negative impact of so many more HGVs coming through Wroxton and so close to our village iwould be totally demoralising. Not only is there a negative environmental impact , due to potential leakage and contamination but also the possible noise pollution from beeping lorries working extended hours threatens to destroy the tranquility for all in the vicinity. The main Stratford road regularly floods and I cannot see how the damage already causing this dangerous problem will not be made worse by the volume of activity proposed . I urge you to consider these points and to help preserve this area of outstanding beauty ."/> |
