| Type of Comment | <input type="text" value="Objection"/> |
| Type | <input type="text" value="neighbour"/> |
| Comments | <input type="text" value="Dear Sirs, We strongly wish to object to this application, we have done the research and numbers and it would appear there would be 158 tanker trips up and down sunrising Hill, A422, per week plus the associated traffic of employees etc. This is already a dangerous road and bend with accidents occurring regularly in the winter on ice and cyclists falling of the steep hill, our house sits immediately on the road at the top of the hill and this level of heavy vehicle traffic would cause a huge amount of noise, pollution and I fear could damage the foundations of our house, there are several other houses along this route that sit right on the road and it seems extraordinary that permission would be given to give tankers use of this unnecessary route, we also sit at the top of the hill so would be subject to endless gear changing at that level. We strongly oppose this application, that would pass so close to peoples houses. Carolyn & Michele Luzi"/> |
