**Subject:** Planning application 20/02453/F

With reference to the above planning application which I understand goes before the committee on Thursday 10th December, I am writing to express my concerns re this proposal. I live in Hornton and have done all my life and the impact that this fuel depot would have on the village and surrounding areas would be catastrophic. It is a totally inappropriate site on the edge of an unspoilt village community. The increased traffic from super tankers on roads through the surrounding villages not designed for this type of heavy traffic would be devastating and raise many safety concerns. The added light and noise from a site that would operate day and night would be detrimental to the quality of our rural community not to mention the impact on the land and added drainage and flood risk. Please add your support in rejecting this application and help keep this corner of North Oxfordshire rural.

Kind Regards  
Sarah Walther
