Address	<input type="text" value="71 Shearwater Drive,Bicester,OX26 6YR"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="This local green space is treasured and used by the 'existing' Langford residents for walking and exercise. The most important thing is the abundance of rare wildlife which exists here. This would all be destroyed. The recent flooding between Gavray roundabout and Launton roundabout, is a sign of things to come if we continue to remove our green spaces and flood plains. There are several housing developments which still remain incomplete across Bicester, finish these first rather than disturbing new sites where valuable green belt is lost. The local school cannot accommodate more housing, and yet it would be well within catchment. We are trying to encourage local people to walk and not increase car journeys to other schools. We need to do our bit to save this planet and put the health and wellbeing of our existing community ahead of the profit margin for the few."/>
