Dear Bernadette Owens,

I have been advised once again that there is a scoping proposal for the development of Gavray Meadow to the east of Gavray Drive. I am familiar with that area with its ridge and furrow system still visible and think that this unique area should as far as reasonably possible be preserved with no development for the benefit of the present and future inhabitants of Bicester. Once an area is developed it cannot revert to its former state.

I am pleased that Cherwell District Council has taken this matter seriously and took effective legal steps to successfully oppose the plans of the developer. I realise some development may have to be allowed but trust that CDC will make every effort to mitigate any unfortunate consequences affecting the Gavray Meadow site that may arise from it.

Yours faithfully,

Patrick Moles
