Comments	<input type="text" value="Having lived in Bicester for the last 18 years I am very concerned by the current level of development, both with residential properties and the new super warehousing that is a blight on our local area. With few remaining green spaces and a road system that is already struggling to handle peak traffic it amazes my that the prospect of making money comes before preserving what remains of our natural park lands and green spaces. We have a small amount of wildlife, deer and so forth that are already struggling to find a place to exist. I want to my voice my objection to destroying this small area of natural beauty for yet more housing that the local infrastructure cant support."/>
