Comments	<input type="text" value="I am sure more suitable land can be found to build more houses 1. How many precedents are there to not build on a flood plain, you really are not considering the impact this will have on the local environment, or the new house owners by even considering this 2. Your digging up most of Bicester, surely you can allow some part of Bicester to keep its I protected species and local wildlife. Please find alternative land and stop this planning application. This application will be fought against by all residents to preserve our wildlife. Please reconsider at this early stage."/>
