Comments	<input type="text" value="I am utterly dismayed that yet again their is a another application that has been submitted for development of the Gavray Meadows. I do not understand why we have to keep going through this process. This is a wildlife area and thus planning should never be granted. The area that is available to to the wildlife here is already an ever decreasing scale, and what we do have needs to be protected. The wild life that is here is precious to us, the community and the nation."/>
