I wish to register my objection to the proposed development on land that is to the north of Gavray Drive. The proposal is to build houses on a floodplain, what provision has been done to protect other properties in the area? The developers also propose building on the Conservation Target Area, which contains meadows which include damp hay meadow grasslands, and it is also home to many rare butterflies, great crested newts and other protected species. This area is also valued as a green lung in a rapidly growing town. It is vital that this land remains as it is.

Yours,

Sur Wilde,
