Comments	<input type="text" value="This is totally the wrong place to be adding any residential use, this presents a huge flooding issue for the houses along Station Road, there should not be any more residential or hard standing this side of the village. The facilities in the village such as the doctors surgery are already stretched from the local residents and the marina. If more residents come to Cropredy these services will struggle to continue to support the local people. Really nothing has changed since the last declined application, the flooding hasn't been addressed, the lack of transport facilities and the pressure on the local Doctors surgery hasn't changed. Until the local infrastructure and flooding is resolved any application of this nature should not be considered."/>
