<b>Address</b>	<input type="text" value="Cropredy Church Of England Primary School, Station Road, Cropredy, Banbury, OX17 1PU"/>
<b>Type of Comment</b>	<input type="text" value="Comment"/>
<b>Type</b>	<input type="text" value="neighbour"/>
<b>Comments</b>	<input type="text" value="Regarding the planning application, on behalf of Cropredy CE Primary School, there are two important concerns that I feel should be discussed as part of the application process, to help ensure that safety of the children, staff and parents within the school. The first area of concern is in relation to the potential increased risk of flooding in the school. In 2007, the entire school site was flooded, causing large scale damage and repairs required, due to water and sewage ingress into the premises and school site. In particular, the school hall was out of use for the majority of the 2007-2008 academic year, negatively impacting on the efficient education that could be provided for the children. Additionally, the school has, over the past year, also experienced damage to the school hall floor due to heavy rainfall, so I would ask that as part of the application process, discussions are held and information provided as part of the consultation, to provide reassurance regarding the drainage and flood alleviation measures to support the school and also local residents. The second area of concern, is in relation to the increase in traffic outside Cropredy CE Primary School. It is of paramount importance that children, parents and staff are safely able to access the school at the start and end of the school day and there is a concern that the road leading from Cropredy to Great Bourton, which is already very strained due to traffic, could be further impacted by additional traffic movement, increasing the potential risk, to children and families at key times of the school day."/>
