Please note the drop down menu did not work well and I may have selected the wrong house in Church Close on the address

Address should be Church Close House, Church Close Great Bourton OX171RW

Objection

Comments:

This is clearly a 'thin end of wedge' application. If granted I would predict that multiple occupancy will start, the electric supply recently added would indicate a plan for that. A previous application for multiple occupancy next to this site was objected to: open countryside, near railway, effect on public right of way etc and these objections should apply to this overall plan. Occupancy of this site and sites nearby has been objected to over the years (e.g. the stable block was objected to that it should not become residential) and so the prime condition to achieve a certificate of lawfulness: that this residence has not been opposed, has not been fulfilled.
